"WHITE RATS" SEEKING PEACE

Vandeville Performers Not Yet Ready for War With Managers of Theaters.

FEAR SUNDAY CLOSING

When Competition for Positions Slackens.

By JAMES GRANT THURSTON.

Special to The Tribune.

NEW YORK, July 15.—The long-threatsned strike of the White Rats against
vaudeville managers has been called off.
No official announcement has been made,
but members of the organization applying to the booking offices for "time" admit that the season is not a propitious one
and that if any drastic action is taken at
all it will be in the fall season, when
all of the vaudeville houses are open.
The managers say that there will be
no strike and that members of the association who are agitating for a strike
will be the first ones to seek bookings.
The White Rats made demands during
the past week for what they term a
square deal. Among these was "an equitable contract," a single 5 per cent commission on bookings and that all theaters in which they appear be union
shops. Special to The Tribune.

sters in which they appear be union shops.

The organization is connected with the American Federation of Labor.

If these concessions were not forthcoming they would join with religious societies in closing Sunday shows. The managers met this demand with a reply that raisries would be cut accordingly—that contracts would be based on a week of six days instead of seven—and immediately many of those who earn their livelihoods by Sunday work came to the conclusion that they were sacrificing themselves in favor of agitators who draw salaries at the present time based on a week of fourteen performances.

The attitude of the managers in answering the demand to individuals seemed to have brought about a change in front among some of the big members of the organization, for when asked if there would be a strike they seemed to reply in a single vein.

"We would be foolish to go out now it would simply give the managers an excellent excuse for closing their houses Juring the hot term."

An official said that he did not think there would be a strike now or in the future, despite threats to the contrary.

Sunday Question Involved.

Sunday Question Involved.

Sunday Question Involved.

The orders of the organization regard "Sunday closing" issues as a strong weapon. Sunday theatrical performances are prohibited in eastern states. The law however, is not thoroughly enforced in all places as public opinion seems to be that there should be places of anusescent and recreation open on Sunday for those weh have no time to go to such houses during the week.

"I cannot say that the White Rats are a unit in the opinion that Sunday shows should not be allowed," said a high official of the organization. "A year or two ago, when the church alliance was fighting the Sunday performances, we favored the shows."

"Then you would use the Sunday closing move as a sort of a club by which to attain your demands, would you?" Was asked.

"Possibly that might be the way to be the But of Fort wind you, we want to be

to be a fight to a finish?" looks that way."
ow would you go about stopping

"How would you go about stepping Sunday shows?"

"Well, the White Rats are continually receiving auggestions from ministers and many others that we use our influence to have Sunday theatrical performances done away with. Were we to begin a campaign to that end we would, I believe, be backed up by thousands, and among them would be influential people, including the clergy. All we would ask would be the enforcement of the law."

Most summer hotels and rural dwellings depend for their drinking water upon "the old well." A wealth of romance has been weaved around the well in both song and story, but modern medical science has shown that, nine times out of ten, "the old well" is a breeding place for countless ty-WOULD REDUCE SALARIES phoid germs and other virulent bacilli.

The cause for this is readily understood by the fact that the sewage from May Renew Contest in the Fall, the outhouses and waste matter from the kitchen permeate their way through the ground to the well.

The same is true, and in a larger way, with the streams from which the villages, towns and cities draw their supplies, and it behooves every one to be careful with his drinking water, especially at this time of the year, when so much is used.

PREDICT that within fifteen years smoking and tobacco chewing in public will have become obsolete. A man has a perfect right to drink, chew, or dip snuff in his pri-

Dr. Harvey W. Wiley, chief sachem at the bureau of chemistry, and famous as the leader and originator of the "poison squad" and pure food laws, has adopted a new role. He has become the beacon light in the movement against public smoking.

"In fact," Dr. Wiley continued, "I am sure that no person could suffer from sunstroke who had not been a smoket or 'boozer." The records show such to be the case. Take a man whose system is filled check full of nicotine or alcohol—which, by the way, is the greatest curse in the world, not baring liggers—and the moment the sun's ring liggers-and the moment the sun's rays get him good and right he crum-bles up, and sometimes gives up the ghost. This is proved by the fact that farmers and farmer lads very seldom suffer from heat, although in the har-vest fields they are subjected to the greatest amount of heat."

Special to The Tribune. NEW YORK, July 15 .- New York is getting to be quite a religious center. At the recent general assembly of the Presbyterian church, Dr. Carson of this city was elected moderator and now Dr. Robert Stewart MacArthur of New York has been elected president of the Baptist World Alliance. It may be said that neither of these great Protestant denominations has made any mis-take in the selection of their heads. Dr. MacArthur with characteristic

Not Fighting Catholics.

The matter that will take President MacArthur to Rome is liberty of Baptists in Spain and Portugal, and of Protestant citizens in Peru and Ecuador. Baptists went into Portugal almost before former King Manuel of that country reached his exile in England. It is denied by Baptist leaders in Europe that they have any contention with the Cathelia church. They tion with the Catholic church. They say their only purpose in Portugal is to assist in the spread of the gospel, and to succeed in spreading it where, as they say, the Catholic church has failed. The American Bible society has recently reported the burning of bibles and tracts in the streets of Peru cities. It is not charged that Cath-olics did wrong, but that mobs, incident cities. to almost all countries, were carried away by evil reports.

Baptists have now created what is as they claim, the largest organization in the Protestant religious world, the greatest in numbers and widest reaching in countries affected. Growths of Baptists in Russia, in the Balkans, in Italy, and the Iberian peninsula have been rapid lately. So have growths of Protestants in western South America. It is declared to be the conviction of President MacArthur and of other vigor and decision is planning for a Baptists in the Alliance that personal trip to St. Petersburg and to Rome in conferences not only with the czar and the interest of the church which has bonored him.

The impression is growing that it is matter of months, perhaps weeks, when it will become necessary to select new head for the Roman Catholic church. The pope's health is very feeble and his death at any time would ause no surprise.

The best impression is that Cardinal

Rampolla will be the new pope.

It is unheard of that a nearly successful candidate at one conclave should be the successful one at a fol lowing conclave, but the Italian public engerly hope that such an unusual thing may happen and Rampolla be

chosen. It will be recalled that Cardinal Rampolla would probably be pope to-day had it not been for the interpoday had it not been roll the sitting of sition of Austria during the sitting of a decade ago. This

between Baptists and the Russian and Roman churches are, in the judgment of Baptists, of pressing importance. One of these is religious liberty in Russia. Forty Baptist ministers, natives of Russis and laboring there, attended the Baptist Alliance at Philadelphia, at least two of them out of prison on bail, and have been followed to this country by Russian spies. Immediately upon their return to Russia these ministers must go to prison, one of them to exile, and the other to repeated personal tortures. Others of
